Appropriate engineering controls

Hygiene measures :

Handle using good industrial hygiene and safety practices.

Avoid unnecessary contact with dusts and fibers by using good local exhaust ventilation.

Remove material from the skin and eyes after contact.

Remove material from clothing using vacuum equipment (never use compressed air and always wash work clothes separately from other clothing.

Wipe out the washer or sink to prevent loose fibers from getting on other clothing.

Keep the work area clean of dusts and fibers made during fabrication by using vacuum equipment to clean up dusts and fibers (avoid sweeping or using compressed air as these techniques re-suspend dusts and fibers into the air.)

Have access to safety showers and eye wash stations.

Personal protective equipment :

Eye protection

If need, Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

Skin protection:

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands. The selected protective gloves have to satisfy the specifications of Regulation (EU) 2016/425 and the standard EN 374 derived from it.

Body protection:

Working cloth. Choose body protection in relation to its type, to the concentration and amount of dangerous substances, and to the specific work-place., The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

Respiratory protection:

Respiratory protection is not required. Where protection from nuisance levels of dusts are desired, use type N95 (US) or type P1 (EN 143) dust masks. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

Control of environmental exposure:

No special environmental precautions required.

Hand protection:
